

# Money in the Tank!

Take charge of your water bill!

## “Money in the Tank!”

is the first of four  
2010 Save Water Seminars

Our program for July 7, 2010:

- ▶ **Introduction**  
Phil Paschke, Seattle Public Utilities
- ▶ **Toilets and Urinals—the Next Generation**  
Roger van Gelder
- ▶ **Water Footprinting, a new tool for businesses**  
Shannon Donegan, Resource Venture
- ▶ **Meet the vendors**  
Vendors carrying Water Sense–labeled fixtures will showcase their newest products.
- ▶ **Test the fixtures**  
Use these newly–installed high efficiency toilets and urinals:  
1.28 gpf Totos  
1.28 gpf Sloans  
Pint flush Zurn urinals

Savings could be a seminar away! Join us to hear the latest information and trends in high efficiency toilets and urinals, and learn how you can upgrade your fixtures. Your building can save water and money!

- Hear from Roger van Gelder, an expert with over 10 years of experience with efficient toilets and urinals.
- Listen to a panel discussion by local facilities’ managers and engineers who have installed these fixtures.
- Discover local financial and technical resources to get you started.
