

Spill Prevention & Preparedness

October 22-23, 2008
Resource Venture

Spills and Chills

1 million pounds of chemicals enter Puget Sound annually, from:

- Industrial discharges
- Oil spills
- Vehicle exhaust and fluid leaks
- Pesticides, herbicides and other products we use in our daily lives that contain harmful compounds.

Preventing spills:

- ❑ Save you money
- ❑ Avoids hassle
- ❑ Protects water, human health and habitat

Today's Agenda

- Spill Prevention and Preparedness
 - Seattle Public Utilities
 - Environmental Coalition of South Seattle
- Storm Drain Demonstration
- Evaluations

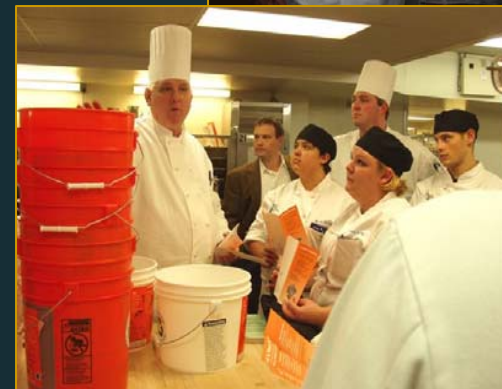

Free Business Assistance

- ❑ Disposal Streams
- ❑ Water Conservation

Garbage: Black Gold

- Food scrap recycling
 - 32% cheaper than garbage
 - Low investment
 - Easy implementation

Where's the water?

- Retrofit!
 - Aerators
 - Toilets/urinals
- Minimize discretionary use of water - sweep don't hose down sidewalks!

Who're you gonna call?
